

TriTeq Lock and Security

Testimonials

**Norm Tanner, Vice President
Bernick's Beverages & Vending
St Cloud, MN 56302**

"We have been using TriTeq's AutoTraq locking system on our vending machines since 2007 and we recouped our initial investment within 18 months of installation.

The AutoTraq software with its accuracy and reliability has enabled us to identify internal and external problems more than once. We have used the audit trails that give us access events, user, vendor, time of day, date and route. T

The data we have gathered has allowed us to identify our problems, know where our assets are at all times and make changes when and where we've needed to. We are pleased with TriTeq's performance and highly recommend their equipment."

Bernick's services central and northern Minnesota as well as western Wisconsin with the following products: Pepsi Brands, DrPepper Snapple Group, Klarbrunn, Starbucks, Tropicana, Juicy Juice, Crush, Lipton, Sobe Tea, Gatorade Rockstar and Muscle Milk.
