Chaff Vending Service

"Our customers are our greatest asset"

"We have had extensive experience with the TriTeq Lock System. It has been an incredible tool for us completely eliminating theft and dramatically reducing damage from vandalism. After repeated break-ins through four different types of locks, including the "hockey puck" style, we finally found a solution...TriTeq locks.

One of our very large hospitality accounts recently suffered weekly break-ins through traditional locks and Chaff incurred hundreds of dollars of losses from repeated theft. We converted our Coca-Cola machines at the site to TriTeq and have not had one ATTEMPT at vandalism since.

A recent new account had their vending company abandon the location due to the amount of theft experienced. We installed equipment with TriTeq locks and have not had a single case of vandalism nor lost one dollar in the new locations...others in the area continue to have problems...TriTeq really works!"

Chaff Vending Service is a full service vending company covering Massachusetts, New Hampshire and Rhode Island distributing: Coca-Cola, Pepsi, snacks, food and coffee.
