*Red Deer Bottling Co. Ltd.*

“We installed TriTeq's AutoTraq locking system in 2007 or 2008 and it has virtually eliminated vandalism and theft. Originally the equipment was recommended to us by Royal, the vending machine manufacturer, and they convinced us to install TriTeq. There are no problems with the equipment and the performance has been terrific.

We realized a payback on investment in one to two years. And the savings realized from not having to refurbish vandalized equipment has more than paid for TriTeq...thieves don't even try to break in anymore.”

*Red Deer Bottling Company services south central Alberta distributing the following products: Coca-Cola, PowerAde, Dasani, Fruitopia, Diet Coke, Sprite, Nestea, A&W, Canada Dry, Minute Maid and Barqs.*
