Securing your Success

AutoTraq System

The AutoTraq System™ is the only security and loss prevention system designed to fight internal and external theft by giving you real time tracking and accountability of your vending business 24/7.

The AutoTraq System™ provides real time tracking and accountability. With the AutoTraq System you gain total control of your vending equipment. The AutoTraq key(s) produces an audit trail for each route, technician, driver or supervisor. TriTaq software generates a detailed security report for data analysis and vendors are managed with pinpoint accuracy. New features include:

- Longer battery life and battery life indicator
- Protected memory
- Ability to set limits on daily vendor visits by specific personnel

Our customizable software fits your operation.

AutoTraq software is easy to install and customize gathering the information important to your operation. It supports the latest operating systems and will fit seamlessly into your existing IT parameters. Key features include:

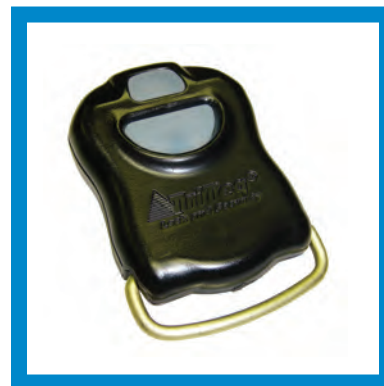

- Asset tracking
- Auto backup of stored data

"We have been using the AutoTraq System for over two years now. We saw a payback on our investment within one year from date of installation."

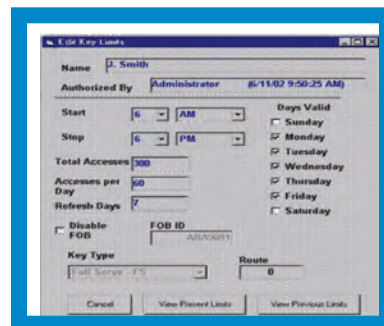

~ Midwest Bottler

AutoTraq is an excellent management tool.

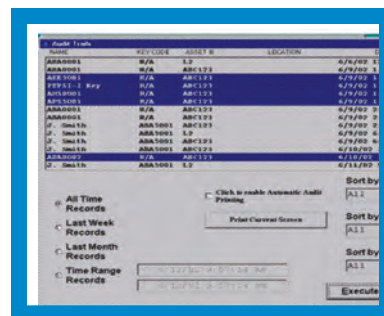

Accountability has always been a tricky issue - no longer. With AutoTraq you manage time and access to your vending equipment. Managers can easily upload new instructions to the system or technicians can download them from home so that field productivity improves. In today's economic climate improving your operation's efficiency is the fastest way to increase profit and gain market share.

THE AUTOTRAQ KEY RECORDS AND STORES A PRECISE RECORD OF YOUR VENDOR ACTIVITY

AUTOTRAQ SOFTWARE ALLOWS CUSTOMIZATION AND YOU CAN PRESET VENDOR ACCESS

THE AUTOTRAQ REPORT SHOWS ACCESS, DRIVER, LOCK, DATE AND TIME INFORMATION

RouTeq System

The RouTeq Safe System:™ custody of mechanical keys, total control and security during off business hours and archiving of all key activity. Reduced drive time and fuel costs plus no need to check keys in or out...now you're safe.

TriTeq's RouTeq Safe System™ is your key to successful loss prevention. The system consists of the RouTeq safe, AutoTraq key(s), AutoTraq software and a cradle/power supply. The safe mounts in any vehicle, office or plant and secures all vending machine keys. It can only be opened using the AutoTraq key which stores all activity in its memory.

The RouTeq Safe is designed to work with AutoTraq keys. Each key records an audit trail for each vendor, technician, driver or supervisor. The stored data can be downloaded and the TriTeq software will generate a detailed report. Managers can monitor all vending equipment and personnel with pinpoint accuracy.

Your safety and security can increase your profits. The RouTeq System can reduce the number of visits to the plant or home office. This means less drive time and lower fuel costs. Get aggressive about reducing losses and stop shrinking profits...get RouTeq today!
